

Ferrari

Designed by Italian Sports Car Racer Enzo Ferrari, it's one of the fastest cars ever. Winner of countless Formula One races, this exotic red streak is a favorite of almost anyone who loves cars.

1 Draw the profile shape of this car and add two circles for the tires making sure you draw guidelines through the tire shapes.

2 Erase your guidelines and draw wheel wells, door, mirror, and lights. Also, draw seats and the windshield.

3 Add contour details. Draw rims, trunk, tailpipe shape, and back lights.

4 Choose a ruby red with plenty of darks and lights. Add a tan interior and this Ferrari is ready to cruise.
